***Subject** charge of Debit of the Exchange Compensation Allowance of European Officers to the Several Departments, to which they belong.

(a). No. 1262 of 26.2.02 from ~~the~~ Examiner to Comptroller.
(b). No. 6074/1282 of March 02. (no specified date).
(c). No. 2168 of 5.4.02 from Examiner to Chief Engineer.
(d). No. 2282 of 22.4.02 from Chief Engineer to Examiner.
(e). No. 7376 of 28.5.02 from Comptroller to Secretary.

Note (a) The Examiner, P. W. & Ry. Accts, asks the Comptroller, under what authority, the question of debiting the difference between the two rates of exchange has been raised against the P. W. Dept. since 1899-1900, though Govt. Pro. No. 9946/G. F. 453-72 of 23rd Dec. 1893 point to its retention in the Civil Account Books, which latter was the usual procedure adopted ever since 1893. (b) To this the Comptroller replies that the entry of the "Exchange compensation allowance" in the Civil Account Books, prior to 1899-1900, was an error and that it has been thought expedient to debit the cost of the allowance made to any Officer, to the Department where he may, for the time, be serving.

(c) Thereupon, the Examiner refers the matter to the Chief Engineer for his decision. In doing so, the Examiner points out that the "Exchange compensation allowance" here, in Mysore, differs from that in Brit. 0

to his people in England, but is only granted to those, who actually make such remittances and calculated only on the actual amount of such remittance. He also adds that, the average total remittance per annum for all Departments not much varying in successive years, the budgetting of these charges in the several Departments would be rather difficult and unnecessary and that, in spite of the above facts, if these charges are to be accepted, at least in the P.W. Dept., provision should be made for them in the current year's budget.

(d). The Chief Engineer writes, in reply, to say that Govt. sanction should first be obtained before anything can be done in the matter.

(e). So, the Comptroller, in placing the matter before Govt., states

- (1) that this ~~excess~~ ^{compensate} Exchange allowance in Mysore is subject to the same limitation in calculation as that in British India,
- (2) that it is an addition to the salaries ^{of Officers} and the charge, so far as it relates to P.W. Officers, is clear a P.W. one and not a civil charge,
- (3) that such distribution of the charge among the several Departments of the State would ~~add~~ facilitate the keeping of accounts,
- (4) that the contribution paid towards leave and retiring allowances of "Lieut. Officers", which, up to 1895-96 was debited to the head "Miscellaneous", was distributed among the several Departments ^{after that year,} and that the P.W. Dept. have accepted the charge without any objection.

Q. 7. 1-02

(5) & that all the other civil depts have been bud-
getting such charges without any difficulty,
and solicits that Government may be pleased
to direct the P.W. Department either to accept
the charge, which is only 1.26 p.c. of the total
provision made for that Department and which
could easily be met from the savings there, or
to make their (P.W. Dept.) own arrangements to
^{subject} ~~make~~ the remittances of P.W. Officers to the audit
of the Examiner.

change on family remittances, in which the Examiner of P.W. Accounts refuses to accept the debit of the charge to the P.W.D. on the grounds (1) that no end is gained by the distribution of the charges to the Departments concerned, (2) that unlike exchange compensation allowance it does not form a percentage on the salary of a known class of Officers and (3) that to budget it is difficult, and the Chief Engineer concurring with the Examiner has asked me to obtain sanction of Government before accepting the debit, I have the honor to submit the following for consideration.

2. The concession of allowing Officers to remit to England at the favourable rates of exchange a moiety of their salaries for the support of Education of the Members of their families depending upon them in England was made in lieu of Exchange compensation allowance and is subject to the same limitations in calculation as that allowance, and the charge on that account has been ordered to be debited in the accounts as "Exchange compensation allowance". It is therefore an addition to salary and the charge so far as it relates to P.W.Officers

Officers is unquestionably a P.W.one and not a Civil one. I am therefore unable to understand how such legitimate charge can be refused ~~to~~ acceptance simply on account of alleged difficulty in calculating and budgetting for it.

The distribution of the charges to the several Departments serves one of the main objects of all accounts, viz: their debit to the heads of grant to which they legitimately belong.

Government in their order No.9946-GF453-92 dated 23rd December 1893 simply directed their debit in the accounts as "Exchange compensation allowance to local Officers" as distinguished from "Lent Officers" and this Office has been erroneously charging them to "Miscellaneous" under a separate sub head.

This item "Miscellaneous" is intended only for unforeseen and non-recurring charges which cannot be debited to any of the known recognised heads of account. ~~It~~ should not therefore be made to swell with known items of this kind. For the same reason the contribution paid towards leave and retiring allowances of Lent Officers, which up to 1895-96 was debited to the head Miscellaneous in a distinct entry, was distributed to the various Departments, and the charges on account of P.W. Officers have been ~~debits~~ admitted by that Department since that year without any objection.

In reclassifying the budget heads of accounts on the lines suggested by Mr.Biddulph this item was therefore removed from Miscellaneous and distributed to the various Departments concerned.

To budget for this item is not more difficult than for contingencies and Travelling Allowances which are as varying as this item, if not more; and as a matter of fact provision is being made and worked out without any difficulty in the Civil Budget for the various Civil Departments. I therefore ~~do~~ fail to understand why it should be more difficult to estimate it for only one Department.

I have therefore to request that you will be so good as to move Government to issue instructions to the P.W.Department to accept the charge which averaged Rs.1711 during 1899-1900 and 1900-1 and bears a proportion of only 126 per cent to the total provision for the Public Works Establishment and which could have easily been met from savings under that head which amounted to Rs.3697 and 16324 during 1899-1900 and 1900-1, or to ~~the~~ direct the Examiner of P.W.Accounts to make his own arrangements for making the required remittances on behalf of the Officers subject to his audit.

1-02-2. Order thereon. - 20 Jul 31-3 27/16.10.02

The Comptroller, Mysore Government, debited to the P.W. Department the difference between the privileged and current rates of exchange on Europe Family Remittances made by P.W. Officers in 1899-1900 and 1900-01. The Examiner, P.W. Accounts, in concurrence with the Chief Engineer, refused unless definitely ordered by Government, to accept the debit of the charge on the grounds (1) that no end was gained by the distribution of the charges to the Departments concerned (2) that unlike exchange compensation allowance, it *did* not form a percentage on the salary of a known class of officers and (3) that it is difficult to budget it. The Comptroller argued that the charge is properly debitable to the P.W. for the following reasons:-

(1) The allowance in question is or is liable to the salary of the officers concerned, inasmuch as it is granted in lieu of exchange compensation allowance and is subject to the same conditions in calculation as that allowance.

2) The charge so far as it relates to P.W.Officers is unquestionably debitable to the P.W.Department and not to the Civil.

3) The distribution of the charges to the several Departments serves one of the main objects of all accounts, viz., their debit to the heads of grant to which they legitimately belong.

4) It was a mistake to have included the charge in question under "Miscellaneous" which is meant only for unforeseen and non-recurring charges. And,

5) To budget for the item in question is not more difficult than for contingencies and travelling allowances, which are as varying as this item, if not more; and as a matter of fact provision is being made and worked out without any difficulty in the Civil Budget for the various Civil Departments.

He requests that instructions may be issued to the P.W.D. to accept the charge, which averaged Rs.1711 during 1899-1900 and 1900-01 and bears a proportion of only 12⁶ per cent to the total provision for the P.W. establishment and which could have easily been met from savings under that head, or to the ^{Direct} Examiner, P.W.Accounts, to make his own arrangements for making the remittances on behalf of the officers subject to his audit.

Government accept the suggestion made by the Comptroller. The Department of Public Works will follow

of the charge in question.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
(General),—dated 23rd December 1893.*

No. 9946—G. F. 453-92, DATED, BANGALORE, 23RD DECEMBER 1893.

ORDER.—By Orders No. 8307—G. 2023-92, dated 10th December 1892, the Officers of the Mysore Local Service, were, as a temporary measure, permitted to remit to England for the support or education of members of their families dependent upon them in England, any sums, not exceeding a moiety of their salaries at 1s. 4½d. per rupee, on requisitions of the Comptroller on Messrs. Coutts and Co., London. In April 1893, the Mysore Government further intimated its intention to prescribe for such remittances a further limit by way of an annual maximum amount.

2. The Government of India, in their Financial Resolution No. 3624A of 18th August 1893, sanctioned for British Officers, European or Eurasian, not domiciled in India an Exchange compensation allowance equivalent to the difference between the rate of 1s. 6d. per rupee and the actual market rate, or one-half the salary, but not exceeding a maximum limit of £1,000 per annum.

3. The Government of His Highness the Maharaja are unable to apply to the Officers of the Local Service the Rules of the Government of India described in the preceding para in their entirety. The question of domicile is one always difficult satisfactorily to solve, and, as the intended relief is for the express purpose of compensating Officers for the extra cost of English remittances due to the depreciation of the rupee, it will meet all legitimate requirements to give to local officers the concession of making remittances at the special privileged rate of 1s. 6d. the rupee, to the extent actually necessary for the support or education of members of their families resident in England, provided that in no case shall such remittances exceed one-half of the monthly salary or a total of Rs. 15,000 per annum. Until further orders such remittances may continue to be made, as hitherto, by requisitions of the Comptroller upon Messrs. Coutts and Co., London.

4. Under such circumstances His Highness the Maharaja's Government are pleased to direct the adoption until further orders of the following Rule in lieu of the one contained in Proceedings No. 8307—G. 2023-92, dated 10th December 1892 :—

“ Officers belonging to the Mysore Local Service will be permitted to make
“ family remittances to England at a special privileged rate of
“ exchange, which for the time being, is fixed at 1s. 6d. the
“ rupee, by requisitions of the Comptroller on Messrs. Coutts and
“ Co., London, provided that such remittances shall in no case
“ exceed the Officer's monthly salary or a maximum limit of
“ Rs. 15,000 per annum, and provided further that any application
“ for such a remittance is accompanied by a certificate in the fol-
“ lowing form signed by the applicant :—

“ Certified that the remittance desired is *bona fide* for the support (or educa-
“ tion) of members of my family dependent on me in England.”

5. The above rule shall come into effect from 1st January 1894, but, as regard remittances already made by Local Officers since 1st April 1893 up to 1st January 1894, they will be allowed the benefit of the privileged rate now sanctioned of 1s. 6d. the rupee. The difference between this rate and 1s. 4½d. calculated on the actual remittances between 1st April 1893 and 1st January 1894 will be paid to the Officers concerned, by the Comptroller, and charged in the accounts as “Exchange Compensation allowance of Local Officers.”
